Subject: License Renewal Radioactive Materials License No. 950-0139
Ref. No. 2, Last Amendment No. 9 - Installation No. LR-0139

Dear Mr. Awa:

In compliance with the State of New York Industrial Code Rule No. 38 "Ionizing Radiation Protection" (12 NYCRR 38) July 10, 1978, Section 38.7 "Security" and 38.11 "Duration of Licenses" we are applying for license renewal.

We request that the name of the licensee be amended from Union Carbide Corporation, Metals Division to Umetco Minerals Corporation. Umetco is a new corporation wholly owned by Union Carbide Corporation formed to facilitate the consolidation of world wide mining and metals activities. We also request a waiver of financial surety bond because, as in the past, the activities of Umetco, are fully backed by Union Carbide Corporation whose financial statement is published and on file with the SEC.

We have had several reorganizations and the Radiation Safety Officer should be designated as J. Pagano with R. J. Klotzbach as the user.

As you know we have tried to terminate this license to handle thorium bearing materials for several years. This year we completed an extensive cleanup program to relieve us of cited violations with the excavated materials sent to authorized burial sites. We still have boxes of material on site which will be completely shipped by the end of December. At that time we will initiate procedures to have this license cancelled and the site certified for unlimited access.

Very truly yours,

~~R. J. Klotzbach~~
